

Strengthening families through innovative tech solutions.

FAF Software is a user-friendly, customizable platform that elevates organizations' ability to help families. It gives program leadership the powerful reports and data tracking they need for program improvement and strong funder relationships, while providing social workers with a research-validated, strength-based assessment tool to guide service planning.

Why FAF?

Family-centric

Assessments focus on the entire family rather than the individual.

Strength-based

Supports approaches which recognize and build upon a family's potential for resilience.

Culturally sensitive

Tested for cultural versatility in the Latino, African American, and Native American communities.

Research-validated

Major controlled research studies have proven FAF's reliability and validity.

Powerful reports

Tracks client demographics and contacts; monitors program performance; reports on outcomes; promotes evidence-informed decision making.

User-friendly

Easy to navigate, promoting comprehensive note-taking and data integrity.

Customizable

Easily tailored to meet program needs.

Affordable

Helps programs realize real cost savings, making for a worthwhile investment.

Sustainable

Supports powerful proposal writing, leading to an increase in funding streams and financial stability.

Unleash the impact of your organization with FAF Software!
