

Strengthening families through innovative tech solutions

FAF Software is a user-friendly, customizable platform that elevates organizations' ability to help families. It gives program leadership the powerful reports and analytics they need for program improvement and strong funder relationships, while providing social workers with a research-validated, strength-based assessment tool to guide service planning.

Feel Confident with FAF

We've applied our 30 years of best practice knowledge into FAF so you can feel confident that it is effective with its many benefits:

- **Family-centric** Assessment focuses on the entire family rather than the individual.
- **Strength-based** Supports approaches which recognize and build upon a family's potential for resilience.
- **Culturally sensitive** Tested for cultural versatility in the Latino, African American, and Native American communities.
- **Research-validated** Major controlled research studies have proven FAF's reliability and validity.
- **Linked, Guided Service Planning** Assessment scores are color-coded for easy viewing and linked to goal setting.
- **Powerful Analytics and Reports** Tracks client demographics and contacts; reports on program performance and outcomes; promotes evidence-informed decision making; supports powerful proposal writing.
- **Aligns with Protective Factors** Assessment consists of 8 family functioning factors, and 59 sub-factors. 30 of the 59 align with the Protective Factors.
- **Strong Implementation and Support** Receive consistent, positive feedback on our training. We offer ongoing technical support.
- **Customizable and Easy to Use** Easily tailored to meet your program needs, and easy to navigate promoting note-taking and data integrity.
